

Derby Day Wheel

There are ten horses on the Wheel - numbered 1 thru 10 - with the odds listed under each spoke of the Wheel.

The odds start at 4 to 1, with the highest odds being 6 to 1. Players bet on as many numbers as they desire.

The Dealer spins the Horse Wheel after all the bets have been placed.

The Players are paid if the number they bet matches the Horse number which turns up on the Wheel.

Players are paid the odds that the pointer has landed on.
